

K-Love has a very important place in my life. It has enhanced my life in so many ways. First, K-Love has brought excitement to my town, by giving us a station that everyone who hears you listen to it knows that there's a difference in your life that is reflected through how you go about your daily business. If my community was to lose our K-Love station, we would have no place to turn for good positive music to lift our spirits. Our town would be so depressed, and have no place to turn to lift our spirits like K-Love does. I believe it is in our community's best interest that K-Love stayed where it is, on the air. Taking away K-Love would be taking away our ability to access good music.
